

# MISIDENTIFICATION, THE ASSUMPTION THAT EFFECTUATES SUBJECT STATUS, SLAVERY

by Charles Miller

What is Misidentification, what are its effects and who or what is affected?

Major Premises.

Identifying a Ford as a Chevy is misidentification.

Identifying a drone as an airplane is misidentification.

Identifying a rubber duck in the bathtub as a ship is misidentification.

Identifying the American People as subjects of government to be ruled over is Slavery caused by misidentifying the Sovereign American People as subjects to or objects created by governments owned and controlled by governments creating them.

The creator is always the owner.

Misidentification; Merriam-Webster : incorrect or false identification.

Knowingly operating a false identification is a crime.

Proper identification of We the People is a settled fact of law declared by the the Supreme Court Order to all public servants and every franchised, regulated, supervised, and controlled entity constructed in any manner by governments.

Quote, Yick Wo v. Hopkins. 118 U.S. 356(1886)

Never overturned or cancelled!

“ When we consider the nature and the theory of our institutions of government, the principles upon which they are sup- [118 U.S. 356, 370] posed to rest, and review the history of their development, we are constrained to conclude that they do not mean to leave room for the play and action of purely personal and arbitrary power. Sovereignty itself is, of course, not subject to law, for it is the author and source of law; but in our system, while sovereign powers are delegated to the agencies of government, sovereignty itself remains with the people, by whom and for whom all government exists and acts. And the law is the definition and limitation of power. It is, indeed, quite true that there must always be lodged somewhere, and in some person or body, the authority of final decision; and in many cases of mere administration, the responsibility is purely political, no appeal lying except to the ultimate tribunal of the public judgment, exercised either in the pressure of opinion, or by means of the suffrage. But the fundamental rights to life, liberty, and the pursuit of happiness, considered as individual possessions, ( property )are secured by those maxims of constitutional law which are the monuments showing the victorious progress of the race in securing to men the blessings of civilization under the reign of just and equal laws, so that, in the famous language of the Massachusetts bill of rights, the government of the commonwealth 'may be a government of laws and not of men.' For the very idea that one man may be compelled to hold his life, or the means of living, or any material right essential to the enjoyment of life, at the mere will of another, seems to be intolerable in any country where freedom prevails, as being the essence of slavery itself. “.

(Emphasis added )

The ‘pressure of opinion’ is We the People’s collective cultural battle cry, NO CONSENT!

Forced, coerced, threatened, deceptively obtained consent is slavery.

The People’s governments as We created them is based on ‘consent of the governed’.

‘Suffrage’ is the right of the Vote.

The American People's Votes are private personal property expressing the Political Will of the People.

Expression of Political Will by the People is the ruder steering the ship of state We the People created identified as governments We created to serve us individually and collectively.

Conversion of our Votes to the unintended use by public servants and the minions created by governments identified as artificial persons is Theft of personal property.

Being misidentified as a subject of or object created by government is a misidentification of the American People by individual government servants.

That misidentification is Theft of the American Sovereigns identity of We the People.

Public servants refusing to accept We the People's identification of ourselves and our political, legal and commercial capacities is Conversion of the American People's Sovereignty to one of subject status to public servants personal purpose to manage We the People as human chattel property. Slavery!

Slavery is defined by Order declared by the Supreme Court which is fair notice, due process, the knowledge and opportunity to respond. Every public servant and franchised constructed legal person by government should know misidentification of the American People results in Slavery.

Quote, Proof of fact. United States v. Kozminski, 487 U.S. 931 (1988).

"Held: For purposes of criminal prosecution under § 241 or § 1584, the term "involuntary servitude" necessarily means a condition of servitude in which the victim is forced to work (be regulated by, held subject to) for the defendant by the use or threat of physical restraint or physical injury or by the use or threat of coercion through law or the legal process. This definition encompasses cases in which the defendant holds the victim in servitude by placing him or her in fear of such physical restraint or injury or legal coercion. Pp. 487 U. S. 939-953. "(Emphasis added)

Minor Premises.

Is our identity personal property?

If so, where did that identity come from?

Creation perhaps?

Names, identified, by our parents?

By what authority could anyone or anything identify us without our consent?

When We Americans refuse to be identified by other than ourselves, and someone or thing attempts to identify us for their purpose, is that an invitation to involuntary servitude, or slavery when the misidentification is done by force of deception, coercion or sham legal or commercial process?

YES!

Is Personal identity property?

YES!

If We the People do not Claim it, do We lose it!

If We the People fail to apply our own law, do we lose access to it?

YES!

If you do-not own your personal identity who does?

When any American fails to properly identify themselves, our political, legal and commercial relationships, do We allow and invite other to identify us individually, for that other purpose.

YES!

If we as Americans do not identify ourselves, and create the public record of the ownership of our personal property, will the government do it for our us?  
YES!

Is there any doubt about this fact?  
NO!

Assumption: Merriam-Webster.

1: a taking to or upon oneself;

2: the act of laying claim to or taking possession of something  
the assumption of power;

3a: an assuming that something is true, a mistaken assumption.

b: a fact or statement (such as a proposition, axiom, taken for granted.

Relevance to assumption: theory, premise, hypothesis, beliefs, option, presumption, dictum, hypothetical, presupposition, assertion, inference, doctrine, thesis, dogma, deduction, standard.  
All based on lack of knowledge of the true identity.

Assumption is what We the People invite when We fail to identify ourselves.

Thus, the invitation to government actors to identify each of us from government created records becomes the operational imperative controlling the effects causing the affects in our lives.

This operational imperative is interpreted by public servants to be consented to be ruled over. Thus, the subject is recognized by the acquiescence of allowing public servants to identify any of us as subjects to be managed. Slaves!

The solution and resolution to being misidentified and held to account by our public servants is available to any one of us Americans under the currently operating systems that misidentify us.

Once we the people properly, identify ourselves and advise our public servants that we have done so, construct public record proving our personal identity, provide the actors our public record proof of fact of that identification, the public servant has no choice, but to recognize us, as we define ourselves and our legal relationships.

If the systemites fail or refuse to recognize our ownership over our own identities, they CONVERT who and what you are to yourself to what you are for them and their purpose to rule over our lives. That is Slavery.

Anyone, anywhere, anytime, that seeks to challenge our self-identification, is either enticing us into involuntary servitude to whatever they serve, or openly practicing slavery upon us.

Every public servant and franchised, licensed, regulated, taxed entity and all their servants, are subject to the Orders of the Supreme Court defining slavery. See U.S. V. Kosminsky above.

Misidentification of any American is a crime, a personal act. That personal act becomes a TORT, the moment any American is held in any manner whatsoever against their will after demanding the source of authority over us is presented.

TORT: Merriam-Webster. A wrongful act other than a breach of contract for which relief may be obtained in the form of damages or an injunction.

Simply put, a private wrong, a trespass on our personal identities.

Further criminal charges are evidenced when any public servant or government franchised operation agent misidentifies any American. These crimes include yet are not limited to; compounding and accumulating civil rights violations, Conversion, Theft, of personal property, our identities and herds more.

Secondary, yet of premier importance are the crimes committed by the public servants. Embezzlement from the government. Taking the paycheck for following the law, all of it, all the time and then refusing or failing to do so. Conversion, the failing to properly identifying the People as Sovereign. Failing to properly perform paid for functions and duties, Theft, the key beginning crime being failing to advise We the People of our access to and protection from the Bill of Rights, and our States United Declarations of Rights.

We the People created the controlling law over administration of the People's Constitutions, by our public servants and government franchised operations, because We created governments.

When We the People are not properly advised by our public servants that We have access to, protection from both the laws and our public servants paid for obligations through misidentification of us, We are captured by our own ignorance and cowardice.

Self-actuated capture always has dire consequences.

Remember the Constitutions are a whole. Every government act carries with it the whole of the constitutional authorities, particularly the Bill of Rights and Declarations of Rights at the States level. The constitutions are-not subject to public servants piecing up or selective application in any circumstance whatsoever.

Every act of government carries with it the full complete written text of the People's Constitutions.

All government franchised, licensed, regulated operations and their servicing individuals are bound by ORDER issued by the Supreme Court of the United States of America, to recognize any American, properly upon demand. Said proper recognition, requires absolutely, that We be provided the access to and protection of People's first law of Constitutions controlled by the National Bill of Rights, and States United Declaration of Rights. These "thou shall never trespass on reserved rights", laws are specific orders to all public servants and franchised operations supervised by governments. See Yick Wo V. Hopkins above.

Public servants are elected, appointed or employed to serve as administrators for and to the root concepts declared as the Supreme Law declared by our Constitutions.

The Orders issued by the Supreme Court defining the People as Sovereign is in fact and deed binding on ever public servant and government franchise operator.

First, we must understand what government actually is, and how it operates. Then the solutions will expose themselves that exposes resolutions are already written into the government operations, called statutes, rules, regulations, and records.

ALL Government is simply legalized force!

In our country, the United States of America, legalized force comes from We the People, because We the People constituted governments to hold our absolute right to protect ourselves, families and property.

The creator of anything is always, always, always, the true owner of what is created.

Constitute: Merriam-Webster. 1. as in to comprise, to be all the substance of!

If We the People created the constitutions, are We the substance class granting all powers and authorities to governments We created/. Are We as that class are responsible FOR the operations of government?

YES!

Could We the People grant governments We created powers We as individuals do not have?

NO!

Is that why the legislative sections of neither the national nor any of the States United Constitution's identify the people as either subjects or objects created by government to be ruled over?

YES?

Did We the People create governments to Rule Over us as individuals or as a class of individuals?

NO!

Proof of Fact. Simply review the legislative sections of any state constitution, or the national constitution, created by the states, and identify the portion of government powers, creating law that identifies the People as either subjects or objects to be ruled over.

Please do not be surprised when you do not find that you are subject to or of government, nor the object created by government.

The fundamental principle of our government that was constructed to serve We the People, an allegedly free people, is the single term; CONSENT OF THE GOVERNED!

None of the open public discussions carried through all the delivery mediums in this country ever address these root issues. Thus, confusion and compounding confusions to the point of destruction control because there is nothing discussed or presented, defining the root issues to be addressed.

There is no argument nor a resolution in a one-sided dialogue.

Government is a piece of paper with words written on it. We, as a People agreed to do this, so that We all had a common structure of legalized force to protect our lives, fortunes, properties, and sacred honor.

Words on paper, cannot punch you in the nose, speak to you, or hold you to account absent your consent being given after being advised of all the relevant law and facts concerning your personal activities. More to the point words on paper cannot communicate with other sets of words on paper. What this means in very simple, and direct terms is that in order to be recognized by the governments We the People created, We must have words on paper.

When our intent is expressed by words on paper and an official public record is constructed the communication structure to our public servants who each live or die by the written word on paper is completed. In other words, the public servants and all of the franchise government entities have proper notice of who, and what We are to ourselves and to them.

Public servants, individual people, are the animation factor, putting the words on paper into effect that affect We the People.

Public record is never deniable and always perfect evidence. This is the law of the national constitution in its Full Faith and Credit clause.

Conclusion.

Any American allowing Assumptions concerning our personal identity by other than ourselves, to identify us, perfects the Slavery, We create in our own minds causing the act of being ruled over which is the root cause of our countries current confused state of affairs.

Perfecting self-ownership of our identities through registration on public record is the Resolution to all claims that We the People are subjects of or to government to be ruled over!

When We the People own ourselves and our identity and have government documents to prove it, our public servants will either recognize and serve We the People properly, or, they will create their own records of crimes resulting in Slavery charges.

Note. Authors comment intended to piss off the status quo.

All the current dialogue gurus, pontificators, x-perts, special access intel mavins are given fair warning.

At some point, hopefully in the near future, you all as a class, will be held to account.

That account being summed up by a few pointed questions that once put in motion will never die because the questions expose inconvenient truths that are never escapable.

When the only issues you all report or dialogue on are the corruption, should everyone believe that's what you support, the corruption?  
If not, why not?

Do you all truly not understand the fundamentals that made America great, and is that why you fail to present them as possible solutions today?  
If not, why not?

When you all continuously promote the corruption exclusively in your deliveries to the world, does that indicate in very strong terms you all are Salesmen for the corrupted culture and support its continuation?

What are you paid in money or ego, to keep selling corruption news, while refusing to even discuss the fundamental principles that created the American Dream of personal Liberty?

What is so dangerous about educating your audience about possibilities of resolutions based on the fundamental law that created the American dream?  
Are you fearful of the law attaching to you if you touch it now?

Where have any of you all provided a place, a destination or a path to a place where solutions could be born?

If you do not know where you are going why should anyone follow you?

Why do you all as a class give the hard sell that someone else is doing something to address the corruption and save our Republic?

How is that irresponsible action ever solution to any problem?

Which is more valuable to our culture, seeking solutions in concert with others, or, feeding the corruption by exclusively talking about oh how terrible is it?

Does refusing to even explore the possibility of solutions being possible, guarantee none will ever be reached?

If not, why not.

Is your religion the belief that corruption rules and always will?

Now, please attack the authors positions.

Your attacks will define who and what you really are and what you stand for.
